---

### PROFESSIONAL EXPERIENCE

---

#### Software Engineer II

Mar 2022 – present

*Nerd United - Switch and Node Governance*

Lehi, USA

- Architected and built React web apps in TypeScript from the ground up for web3 services.
- Created interactive UI components based on high-resolution mocks. Used modern JavaScript methods and APIs (e.g. Intersection Observer for interactive scrolling).
- Led projects involving multiple developers to ensure timely delivery of high-quality features.
- Primary technologies: React (Next.js), Typescript, Ethers.js, Material-UI

#### Full-stack Software Engineer

Feb 2021 – Mar 2022

*Greener Still*

Salt Lake City, USA

- Collaborated with a team of developers to maintain and implement new features for a complex greeting card editor web application.
- Primary technologies: React, TypeScript, GraphQL, Python, Jest, Redux, Git

#### Freelance Web Developer

Sep 2020 – present

- Plan and communicate with clients to design and develop responsive, mobile-first websites that focus on UX and SEO performance.
- Primary technologies: React, JavaScript, HTML, CSS, Sanity, Netlify

---

### FREELANCE WORK

---

#### Peel the Garlic

- Built a recipe website. Focused on creating reusable components, deployment, and improving SEO.
- Primary technologies: Gatsby, Node, MongoDB, Serverless, S3, GraphQL

#### Jens Peterson Design

- Developed a professional portfolio site for a graphic designer.
- Primary technologies: React (Gatsby), Typescript, Sanity, Netlify

#### Komplete Nutrition

- Built a single-page application (SPA) info site for a local dietitian business.
- Primary technologies: React, Typescript, Sanity, Netlify

---
